Race Procedures:

Tire Selection Forms will be available at pit entry gate and tire shop. Turn forms into the tire shop office upon completion. Teams may leave their rims on Thursday before race to dismount tires only. Teams with small crews may complete tire selection form on Thursday and leave at tire shop (This was initiated to assisted teams with limited crew members. Should this procedure become a problem or abused, it can quickly be discontinued). Orders without payment will be placed into the race day order. Staff will alternate between pre-orders and race day orders until all orders are filled.

Teams will not select tires, nor will they be allowed inside tire shop on race day or any other day.

Tire sizes will be randomly pulled by track officials and mounted. Any tires purchased on race day, must be used on race day, unless there is a rainout. In the event of a Rainout, tires will be held in impound at the tire shop until such time as the race can be held. Mounted tires cannot be returned or traded in for new tires.

The Tire Impound will only be open on race day.

Note: Tire Order Form must be completed in its entirety. Tires will be paid for at time of purchase.

Forms without full payment or are incomplete will not be processed.
